PROFESSIONAL SUMMARY

Standard++ Frontend Developer with 6+ years of experience building production frontends, specializing in headless commerce architectures. Expertise in Next.js, React, TypeScript, and commercetools. Proven track record of delivering high-performance, scalable composable commerce storefronts for German enterprise clients. Strong focus on automated testing, performance optimization (90+ Lighthouse scores), and integrating AI-assisted delivery workflows to accelerate engineering velocity and ensure code quality.

TECHNICAL SKILLS

Core: TypeScript, React, Next.js, Tailwind CSS

Commerce: commercetools, Frontastic, Shopware, Shopify, Algolia

Testing: Cypress, Vitest, Jest

Backend & API: Node.js, GraphQL, REST, NestJS, Express, PostgreSQL

Cloud & DevOps: AWS, Vercel, Azure

Practices: Agile/Scrum, Code Review, Agentic Delivery (AI workflows), TDD, Mentoring

PROFESSIONAL EXPERIENCE

SHOPMACHER eCommerce GmbH & Co. KG Da Nang / Remote
Standard++ Frontend Developer / AI Integration Developer 03/2023 – Present

- Architected and developed scalable e-commerce storefronts for German enterprise clients using Next.js, TypeScript, Tailwind CSS, and commercetools with Frontastic.
- Delivered Server-Side Rendered (SSR) features, maintained legacy systems, authored comprehensive tests (Cypress, Vitest), and conducted rigorous code reviews.
- Collaborated directly with Product Owners for backlog refinement and technical scoping of headless commerce features.
- Elevated storefront performance, raising Lighthouse scores from ~60 to 80+ through advanced image and JavaScript optimization techniques.
- Engineered reusable agentic delivery workflows (Claude/LLM skills) to automate end-to-end ticket delivery, including codebase investigation, implementation, and automated test generation, reducing typical investigation time by 50%.
- Transitioned and upskilled in Shopware and Shopify development to diversify the agency's commerce offerings.

NFQ Vietnam Da Nang, Vietnam
Standard++ Frontend Developer 03/2022 – 03/2023

- Built a Pharmacy B2B customer-engagement and CRM solution utilizing React, TypeScript, GraphQL, REST, and MaterialUI.
- Led feature development paired with extensive unit and E2E testing (Cypress) to ensure robust software delivery.
- Conducted root cause analysis and resolved complex bugs, collaborating closely with UX/UI designers and senior engineers in a Scrum environment.

Enlab Software Da Nang, Vietnam

Senior Front-end Developer 03/2021 – 03/2022

- Led a frontend team of 5-6 engineers to build 'BL Education', a greenfield online-course platform (Vue 2, Nuxt, TailwindCSS, NestJS).
- Established frontend architecture, project templates, coding conventions, and comprehensive technical documentation from scratch.
- Mentored interns and junior developers while collaborating with clients, UX, and Product Managers to define product requirements.
- Recognized with the Rising Star Award (2022) for outstanding technical competence and team leadership.

Nestsera Da Nang, Vietnam
Junior Front-end Developer 10/2019 – 03/2021

- Developed client and administrative web applications (Restnext, ToWash, Minh Chau Viet) using ReactJS, VueJS, Nuxt, and Firebase.
- Produced technical proof-of-concepts to specification and maintained detailed documentation for bug reports and code changes.

EDUCATION

Danang University of Technology Da Nang, Vietnam
Engineer of Information Technology (Software Engineering) 2017 – 2022

CERTIFICATIONS & AWARDS

- **AWS Certified Developer – Associate** (Amazon Web Services, 2025)
- **TOEIC 820** (IIG Vietnam)
- **Rising Star Award 2022** (Enlab Software)
